

Speakers

Georg J. Arnold	LAFUGA, München
Hans-Peter Braun	Univ. Hannover
Martin Christner	UKE Hamburg
Stefano Gustincich	SISSA Trieste
Friedrich Herberg	Univ. Kassel
Donald F. Hunt	Univ. of Virginia Charlottesville
Connie R. Jimenez	VU Univ. Medical Center Amsterdam
Thomas Joos	NMI Tübingen
Oliver Kohlbacher	Univ. Tübingen
Friedrich Lottspeich	MPI Martinsried
Reinhard Lührmann	MPI Göttingen
Peter Rehling	Univ. Göttingen
Oliver Schilling	Univ. Freiburg
Gerd Schmitz	Univ. Regensburg
Christoph Schröder	DKFZ Heidelberg
Albert Sickmann	ISAS Dortmund
Richard Simpson	La Trobe Univ. Melbourne
Klaus-Peter Stengele	Roche NimbleGen Systems, Waldkraiburg
Andreas Tholey	Univ. Kiel
Metin Tolan	TU Dortmund
Marius Ueffing	Helmholtz München
Axel Walch	Helmholtz München
Hans R. Waterham	Univ. Amsterdam
Jens Wiltfang	LVR Klinikum Essen

19. Arbeitstagung

Micromethods in Protein Chemistry

25. – 27. June 2012
Convention Center
Ruhr-University Bochum
Germany

www.arbeitstagung.de

Deutsche Gesellschaft für
Proteomforschung e.V.

THE CONFERENCE

Welcome Message

The Organizing Team for the 19. Arbeitstagung invites you to join us in a new setting for the "Micromethods in Protein Chemistry" at the Ruhr-University in Bochum.

After enjoying the hospitality at the Max-Planck Institute in Martinsried for eighteen meetings there is time for changes.

Not only a switch in the official language from German to English will open new opportunities for additional excellent speakers as well as for more international interactions and communications.

We will hear from experienced colleagues about innovative approaches and pulsating applications. At the same time junior scientists will have the chance to benchmark their first scientific studies and to strive for the Young Talents Award. Together with our Commercial partners an update on the latest techniques and technologies will be presented.

The Arbeitstagung will provide you with a well-known stimulating atmosphere and a proven quality of scientific presentations. Let's be ready for surprise - there are still more new activities planned in the new setting at the Ruhr-University!

We look forward to seeing you in Bochum in 2012!

Roland Kellner, Merck, Darmstadt
Friedrich Lottspeich, MPI Martinsried
Helmut E. Meyer, Ruhr-Universität Bochum
Albert Sickmann, ISAS Dortmund

THE PROGRAM

Opening lecture

Sample Preparation

Functional Protein Analysis

Chemical Biology

Quantitative Protein Determination

Boundaries in Analytics

Young Talent Awards in Protein Analytics

Vendor Seminars

Scientists' Party Night on Tuesday

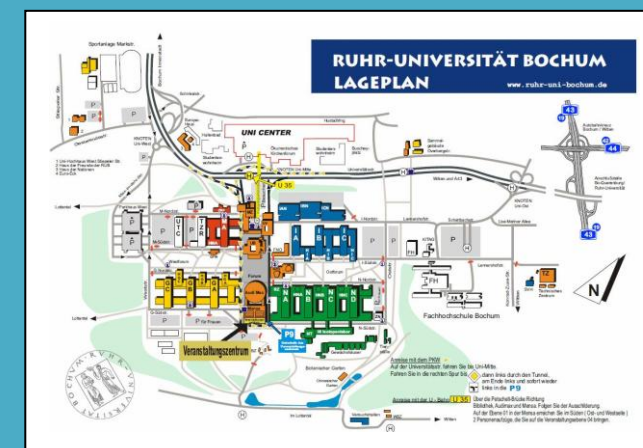

Hands-on Workshops

Meeting Registration

For registration please visit:
www.arbeitstagung.de

THE VENUE

The Arbeitstagung will take place at the Convention Center of Ruhr- University Bochum, which is conveniently located close to the City and Hotels.
