

Saturn-2D™ REDOX

Customer review

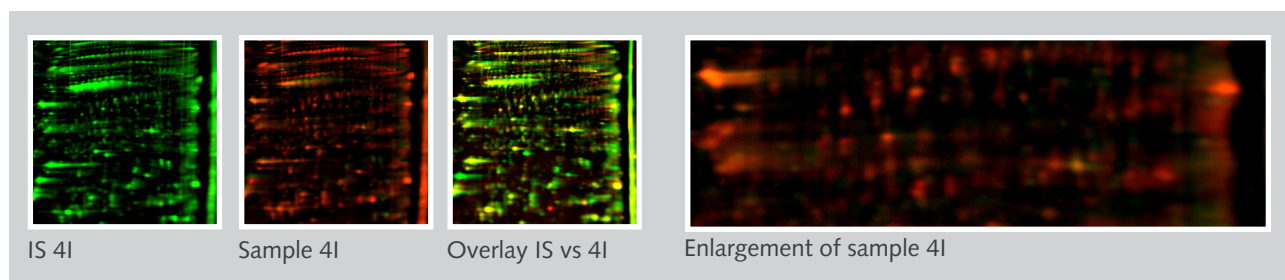

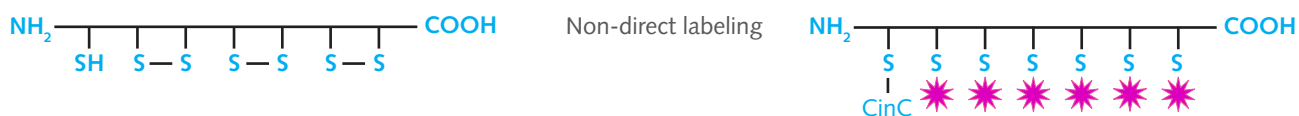

“Saturn-2D™ REDOX is the ideal solution for our gel-based approach to identify proteins that are sensitive to oxidative stress. We are working with Saturn-2D™ REDOX since 6 months and are very pleased about it.”

Dr. Rudolf Lichtenfels, Head of Proteomics Platform
Institute of Medical Immunology, MLU Halle, Germany

- The direct labeling approach optimally visualizes reduced cysteines.

- The non-direct labeling approach optimally visualizes oxidized cysteines.
